御德國際控股有限公司

(Incorporated in Bermuda with limited liability)

(Stock Code: 8048)

**FIRST QUARTERLY RESULTS FOR THE
THREE MONTHS ENDED 31 MARCH 2020**

**CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED
(THE “STOCK EXCHANGE”)**

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this announcement, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

This announcement, for which the directors (the “Directors”) of Yu Tak International Holdings Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. OPERATION REVIEW

Gold price per ounce started in 2020 at USD1,511, extended to its peak at USD1,674 and closed at USD1,583 at the end of the first quarter of 2020. Prices volatility followed the risk sentiment stemmed from reports on global spreading of the coronavirus.

During the quarter ended 31 March 2020, the operations of sales of gold and jewellery segment were suspended due to quarantine policies of China and no sales was recorded. On the other hand, the IT Products and Services Segment was less susceptible to the disruptions. The segment reported revenue of approximately HK\$10M which was about 57% of the amount for the same period of last year.

FUTURE PROSPECTS

The countrywide outbreak of coronavirus from the beginning of 2020 has hammered all luxury product markets in China and there is no exception for the gold and jewellery market.

While the epidemic in China has been under control, many other countries are still fighting against the infectious disease. China economy, which relies on manufacturing and exports, can be further impeded by wrecked international trade and consumer demand. The economy may take months to pickup but the Group remains optimistic of the recovery of domestic jewellery market towards the second half year. It is believed that more updates will be available in the next report.

For the IT Products and Services segment, the Group remains interested in other business opportunities including IT and on-line businesses. The Group will aggressively look for business opportunities which have synergies with its core business.
