### **VOLUNTARY ANNOUNCEMENT**

#### **RECENT BUSINESS UPDATE**

This announcement is made on a voluntary basis to keep the shareholders of Hengxin Technology Ltd. (the “**Company**”, together with its subsidiaries, the “**Group**”) and potential investors informed of the latest business development of the Group.

#### **PARTICIPATION IN THE DRAFTING OF THE NATIONAL STANDARD “BLOCKCHAIN AND DISTRIBUTED LEDGER TECHNOLOGY — INFRASTRUCTURE — SYSTEM STORAGE TECHNICAL REQUIREMENTS”**

The Board of Directors (the “**Board**”) of the Company is pleased to announce that Mr. Peng Yinan, an executive Director of the Company, as one of the principal drafters, and the Company’s wholly-owned subsidiary, Shanghai Zhangyu Information Technology Co., Ltd., as one of the principal drafting units, have participated in the development of the national standard “Blockchain and Distributed Ledger Technology — Infrastructure — System Storage Technical Requirements” (the “**Standard**”). This Standard is under the administration of the National Technical Committee on Blockchain and Distributed Ledger Technology of Standardization Administration of China (全國區塊鏈和分散式記帳技術標準化技術委員會) (TC590), with the Ministry of Industry and Information Technology as the competent authority. The Standard was released under the number GB/T 47701-2026 on 25 May 2026, and will officially come into effect on 1 September 2026.

The Standard establishes a storage service model for blockchain and distributed ledger technology, including two models: intra-block storage and extended storage. It specifies

the requirements for functionality, performance, security and management interfaces, aiming to standardize the blockchain storage technology system, enhance blockchain service capabilities, and promote the healthy and sustainable development of the industry. Participation in the drafting of the Standard demonstrates the Company's expertise and industry contributions in the fields of blockchain distributed storage and digital security as being recognized at the national level.

The Board believes that by leveraging the Company's technical competitive advantages in blockchain and digital security, the Company will be among the first to develop system storage security solutions that comply with the Standard, support clients in building secure and reliable blockchain application infrastructure, and further enrich the Group's product portfolio in the digital technology business.

**Shareholders and potential investors of the Company are advised to exercise caution when dealing in the shares of the Company.**

By Order of the Board  
**Hengxin Technology Ltd.**  
**Peng Yinan**
